-

EDUCATION

Certificate in Full Stack Development: University of Pennsylvania – Philadelphia, PA

Grade: A | August 2020

Bachelor's Degree Communications-Advertising: Rowan University – Glassboro, NJ

GPA: 3.4/4.0 | May 2010

EMPLOYMENT HISTORY

MRS BPO LLC – Cherry Hill, NJ

March 2015 – April 2020

Manager – Contact Support/Digital Communications

January 2019 – April 2020

- Collaborated with the Dev team on an AWS QuickSight dashboard for contact channel reporting by implementing exposed text message delivery failures, which ultimately allowed for remediation and an astounding 20% monthly cost savings.
- Prepared and presented project management tracker and reports in weekly executive-level meetings, resulting in multiple iterations to the contact strategy for efficiency, effectiveness, and cost savings.
- Utilized findings from the company's Data Scientist regarding customer response to develop and program a drastically different call and text attempt campaign, which resulted in cost-savings and increased ROI. Furthermore, the results justified the need for the Dev team to implement additional functionality.
- Recognized by the executive team as an effective technical communicator, and therefore appointed as liaison with contracted Web Developer, resulting in timely site changes, including but not limited to: functional changes; FAQ page for improved SEO; and the addition of Google Analytics tracking.

Manager – Quality Assurance/Speech Analytics/Digital Communications

March 2015 – January 2019

- Designed and formalized a speech analytics call recording audit schedule to enhance phone representative quality and performance exposing many business insights, a few of which follow: reduced unproductive time by ~5%; ensured legal compliance was met on greater than 98% of conversations; and discovered clusters of key words and tactics that represented successful personas/tactics.
- Gathered core conversational questions/responses from speech analytics data that equipped the Dev team with conversational flow for an artificially intelligent virtual agent.
- Drafted policies, procedures, and work instructions that contributed to the company's overall compliance program.
- Entrusted as the company's voice during regular monthly calls with multiple big-bank clients.
- Coordinated the successful build of a new Digital team (text, chat, and email), which included vendor selection and liaisoning between internal IT team and an outside vendor.

Northland Group, Inc. (Formerly Accounts Receivable Management, Inc.) - Thorofare, NJ

May 2010 – March 2015

Manager – Compliance/Quality Assurance/Speech Analytics

- Exemplified understanding of speech analytics software queries and scorecard build tools, by improving performance and compliance scores by 9% in the first 6 months.
- Demonstrated teachability and interest in software, as proven when recognized by management and the vendor (CallMiner) as the best candidate to be appointed as lead speech analyst.
- Assisted Compliance Director with the development of a compliance audit and corrective action plan; a project that focused on the research of industry law and the writing of policies. Facilitated training sessions with managers and phone representatives based on risk assessment trends.
- Showcased copywriting and design skills when selected to create high-end marketing materials, which resulted in the completion of a sales booklet for industry trade shows. The project required a competition analysis, collection of internal information, numerous project meetings with executives and sales reps, a branding plan, and ultimately a finished print product.
